Fax: (941) 378-5676

**Sarasota, FL based *Mullet's Aluminum Products, Inc.*** has been approved as a Participating Independent Contractor in Florida Power & Lights Business Window Treatment (window replacement) / Business Building Envelope Program (BBE).

The objective of FPL's Business Building Envelope Program, (BBE) is to reduce current and future electrical demand and energy usage from air-conditioning (A/C) equipment, during the summer peak hours, through the installation of qualifying energy-efficient building envelope measures.

Under FPL's Business Window Treatment (window replacement) program, commercial FPL customers are provided a financial incentive based on replacing existing windows that face west, southwest or northwest with new, high-efficiency windows determined by Solar Heat Gain Coefficient (SHGC), under approved rating, certification, and labeling procedures of the NFRC.

"We are excited about this program," says Jay Coblenz, Director of Sales & Marketing for Mullet's Aluminum Products, Inc. "This will provide an economic benefit to our commercial customers, and at the same time, is a win for the environment."

Founded in 1978 by Freeman and Sandi Mullet, Mullet's Aluminum is Southwest Florida's premier source for quality building products and superior installation services to the residential, condominium and commercial markets. The company has 155 employees and 5 business divisions; Windows & Doors Division; Metal Roofing Division; Pool Cages & Enclosures Division; Railing, Gates & Fencing Division; and Gutters, Siding & Soffit Division. Mullet's Aluminum is a privately held company with corporate headquarters, manufacturing and fabrication facilities located in Sarasota, FL.
