## **The Last Room on Earth**

Mullet's Aluminum has had the distinct privilege to work on incredible, award-winning projects with some of the most talented individuals, developers, contractors, architects and engineers in the world.

The "Last Room on Earth" part of United Launch Alliance's Crew Access Tower will serve our nation's next generation of human space flight. The ULA Atlas V rocket will launch Boeing's CST-100 Starliner Capsule from Space Launch Complex-41 at Cape Canaveral Air Force Station. The Crew Access Arm, or last room on earth, will be the final stepping stone prior to astronauts boarding the capsule in preparation for liftoff.

God's speed to all who enter this room on their journey to the stars. Our team at Mullet's Aluminum will be forever grateful for the opportunity to contribute and be of service to our great nation and brave men and women.

Founded in 1978, Mullet's Aluminum is an award winning company that specializes in providing quality building products and superior installation services to the residential, condominium and commercial markets. The company has 212 full time employees and 5 business divisions; Windows & Doors Division; Metal Roofing Division; Pool Cages & Enclosures Division; Railing, Gates & Misc. Metals Division; and Gutters, Siding & Soffit Division.

Mullet's Aluminum is a privately held company with corporate headquarters, manufacturing and fabrication facilities located in Sarasota, FL.
